

About Us

Who we are

WomenHeart is the nation's only patient advocacy organization serving the 42 million American women living with or at risk of heart disease.

What we are

WomenHeart is a national network of women living with heart disease, aligned with a scientific advisory council composed of the nation's top cardiologists and experts in the field of women and heart disease. WomenHeart partners strategically with other non-profit organizations and corporations to promote heart health in women.

What we do

- Educate women on the importance of taking charge of their heart health
- Train *WomenHeart Champions* (all heart disease survivors) to educate women and the community at large about heart disease in women; and to act as media spokespersons for WomenHeart
- Support women living with heart disease and connect them with one another
- Advocate for research funding and policies that meet the needs of women with heart disease

Why we're different

We're real women – the “boots on the ground” in the fight against heart disease

- 47,000 members
- 518 *WomenHeart Champions* trained as community educators at Mayo Clinic
- 70 local Support Networks meeting monthly
- 50,000 unique visitors monthly to – www.womenheart.org
- 4,500 registered members in WomenHeart's online patient community
- Founding partner of NHLBI's *The Heart Truth*[®] and The Red Dress[®] campaign
